Continuation of Substance of Interview including description of the general nature of what was discussed: Examiner initiated the discussion by calling applicants to inform them that dependency of claim 170 should be changed to claim 176 which is now the compound claim 1. Applicants desired to have Office communication so that they can discuss the matter with their clients..

## **EXAMINER'S AMENDMENT**

Page 2

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. S. Sarussi on 9/17/03.

The application has been amended as follows:

Please delete [claim 1] as recited in claim 170 in page 9 of the amendment paper #17 dated 9/8/03, and replace with claim 176.

- 2. The following is an examiner's statement of reasons for allowance:
- 3. Applicants' communication paper # 17 dated 9/8/03 is acknowledged. Applicants have cancelled claims 1-103, 109, 125-129, 139-145, 147, 151-157, 162-167, 172-175, amended claims 104,110,116,122,130,132,146,148,160,168, and presented new claims 176-206. Therefore, claims under consideration are the claims 104-108,110-124,130-138,146,148-150,158-161,168-171,176-206. These claims are renumbered as claims 1-72.
- 4. Various cancellation of claims, amendments, and presentation of new claims together with applicants' arguments and remarks are sufficient for the withdrawal of rejections made under 35 U.S.C. 112 Para second.
- 5. The rejections made under DP against copending applications Sr. # 09895871, Sr. # 09896139, and Sr. # 10291318 are withdrawn because the instant claims as now

presented, are claiming derivatives of piperazine which do not encompass the copending claims.

6. Copies of signed IDS PTO Forms 1449 for paper # 4,8,11,12 are enclosed with this communication for applicants' record.

- 7. The closest prior art reference Dressman et al (WO 9509843 also cited as CAS abstract # 123:169523-1995:772556) teaches making of HIV protease inhibitor(s) (see compound on page 39 lines 9-12) with a core:
- "Substituted phenol-CO-NH-CH (CH2-S-Ph)-CH (OH)-CH2-piperazine-N-CH2-pyridine, wherein piperazine is further substituted on ring carbon atom with—CO-NH-alkyl group".
- 8. The ref. '843 differs from the instant claims by **not having** piperidine N substituted as –N-alkyl group, and additionally, by having 1,4-piperazine substituted by **\_CO-NH-alkyl group.**
- 9. Dressman does not indicate or suggest arriving at the instant compounds with a core:". **Substituted 1,3-Benzenedicarboxamide** with 3-position occupied by --CO-NH-CH (CH2 diflouro-Ph)-CH (OH)-CH2-piperazine-N-CH3".
- 7. Therefore the instant compounds of invention of Group IX are deemed to be novel and patentably distinct.
- 8. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
